

Date: March 29th –April 1,2010

Location: Ft Myers, FL, USA

# MCS-Magnum Controls & Hanbell Training

*Providing HVAC/R Control Solutions Worldwide*

Micro Control Systems will be holding a training class on its product lines. This class will be a four day in-depth hands-on workshop that will enable attendees to have a working knowledge of both MCS products and Hanbell Compressors. Attendees will learn how to use MCS-Connect software to communicate with MCS hardware, build configurations using MCS-Config software and learn troubleshooting techniques that will be useful in the field.

A Windows-based laptop with a RS-232 communication port is required to be brought along by each attendee. Lunch will be provided daily. Local expenses are the responsibility of the attendees.

The following topics will be covered:

-  Introduction to MCS Products and Services
-  Magnum Hardware & Troubleshooting
-  Magnum Keypad/Display
-  MCS-Connect & MCS-Config
-  Magnum Chiller Software
-  Magnum Loop Water Software
-  Magnum Bus Communications
-  Hanbell Typical Installation & Maintenance
-  Hanbell Compressor Teardown

Sign up for: MCS Controls Training for the Magnum
